Spring Summer 2026

Spring Summer Collection 2026

Introducing our Spring/Summer Collection, a carefully curated range of fashionable and traditional hats designed to suit a variety of styles and occasions. Within the collection you'll find a selection of standout pieces, including the Kensington Genuine Panamas, the refined Holborn Genuine Panamas, and elegant Lisbon Braid Hats. Also featured are stylish Irish linen caps, completing a diverse range suited to the warmer seasons.

Designed with both style and practicality in mind, our UPF hats offer reliable protection from the sun's harmful UV rays while maintaining a polished, contemporary look. Ideal for outdoor activities, holidays, and everyday wear, they combine comfort, function, and timeless design.

For a touch of refined elegance, explore our Venice Panama hats. Carefully crafted using high-quality materials, these hats bring a sophisticated finish to any outfit. Braided trilbies, a modern interpretation of the classic fedora style, offer another distinctive option within the collection.

Versatility is at the heart of the range, with reversible bucket hats providing two looks in one. Designed for those who enjoy adapting their style, the reversible construction allows for effortless switching between designs while offering excellent value.

With decades of experience in the hatting industry, this collection reflects a continued commitment to craftsmanship, quality materials, and timeless style. The result is a versatile range designed to be worn and enjoyed across many occasions throughout the season.
